Notice Regarding Technical Center Box Issue Fee Mailings

The Office will begin mailing address labels with the PTOL-85, "Notice of Allowance and Issue Fee Due" for patent applications allowed in all Technology Centers. These address labels should be used to ensure proper routing of post-allowance correspondence. This directive supersedes the "Special Boxes for Patent Mail" instruction. Any Notice of Allowance and Issue Fee Due received without the accompanying address labels should continue to be addressed to Box Issue Fee.

Point-of-Sale Check Conversion Pilot Program

The Patent and Trademark Office (PTO) is participating in the U.S. Department of the Treasury's Point-of-Sale (POS) Check Conversion pilot program for certain fee collection activities. The method of payments accepted under 37 CFR 1.23 are not changed by this notice. Those customers paying in person by checks other than cashier's or certified checks may be affected by the POS Check Conversion program. The following educational signage will be conspicuously displayed at all POS Check Conversion locations:

> This Federal Agency now uses electronic Point-of-Sale Check Conversion. Check Conversion uses the information pre-printed on your check to initiate an electronic debit from your checking account. This debit will be posted to your checking account within one business day and will appear on your next account statement as an electronic payment to this Agency.
>
> To perform Check Conversion, the clerk will run your check through a device that can read your account information from the check. You will be asked to sign a form authorizing the Agency to electronically debit the amount of the transaction from your account. The clerk will stamp your check as "Void - Processed by Electronic Funds Transfer" and will return your check, authorization and receipt to you.

The POS Check Conversion pilot will be used in the Patent Search Libraries, Patent Search Image Retrieval Facility, Office of Electronic Information Products, Office of Public Records, and Trademark Search Library. The POS Check Conversion program is one component of the long-term PTO commitment to enhance financial management practices in order to fulfill its fiduciary obligations to its many customers. The POS Check Conversion program will reduce the processing and collection costs associated with returned "unpaid" checks. Customers who do not wish to participate in the POS Check Conversion program may submit a method of payment other than a check in accordance with 37 CFR 1.23, including credit card and cash payments. Questions or comments concerning this notice should be forwarded to Matthew Lee by telephone at (703) 305-8051, by e-mail at matthew.lee@uspto.gov, or by fax at (703) 305-8007.

Reference Collections of U.S. Patents and Trademarks Available for Public Use in Patent and Trademark Depository Libraries

The following libraries, designated as Patent and Trademark Depository Libraries (PTDLs), receive patent and trademark information from the U.S. Patent and Trademark Office. Many PTDLs have on file patents issued since 1790, trademarks published since 1872, and select collections of foreign patents. All PTDLs receive both the patent and trademark sections of the *Official Gazette of the U.S. Patent and Trademark Office* and numerical sets of patents in a variety of formats. Patent and trademark search systems in the Cassis CD-ROM series are available at all PTDLs to increase access to that information. It is through the CD-ROM systems and other depository materials that preliminary patent and trademark searches may be conducted through the numerically arranged collections.

Each PTDL offers reference publications which outline and provide access to the patent and trademark classification systems, as well as other documents and publications which supplement the basic search tools. PTDLs provide technical staff assistance in using all materials.

All information is available for use by the public free of charge. However, there may be charges associated with the use of on-line systems, photocopying and related services.

Since there are variations in the scope of patent and trademark collections among the PTDLs, and their hours of service to the public vary, anyone contemplating use of these collections at a particular library is urged to contact that library in advance about its collections, services, and hours in order to avert possible inconvenience.

Partnership PTDLs provide enhanced and expanded services for which fees are charged. They offer on-line patent text and image searching, on-line trademark searching, and videoconferencing for examiner interviews and workshops. They accept disclosure documents on site, order file wrappers, assignment documents and certified copies for their customers, and host a variety of seminars aimed at specific audiences, including practitioners, paralegals, and independent inventors. Currently, partnerships are located at the Great Lakes Patent and Trademark Center (GLPTC) at the Detroit Public Library in Detroit, Michigan and the Sunnyvale Center for Innovation, Invention and Ideas (SCI^3) in Sunnyvale, California.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date.
